ATTACHMENT TO ADVISORY ACTION

This amendment will not be entered with the following reasons:

Newly added claim 50 recites the limitation of curing the thermosetting powder "solely by transmission of heat through the glass substrate from the second surface to the first surface..." The limitation was not previously examined and as such, would require further search and consideration.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to PRASHANT J. KHATRI whose telephone number is (571)270-3470. The examiner can normally be reached on M-F 8:00 A.M.-5:00 P.M. (First Friday Off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Sample can be reached on (571) 272-1376. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
